

Railroad Safety Advisory Committee

Passenger Safety Working Group System Safety Rule Making Update

to

The 46th Railroad Safety Advisory Committee Meeting

April 26, 2012
Washington, DC

GPS Task Force

- **Activity since last Full RSAC Report in December 2011:**
 - February 1, 2, 2012: Joint RRP/ SSPP Task Force Meeting;
 - March 8, 2012: Webinar meeting to review APTA revision #26 of the SSPP consensus document;
 - FRA advised Task Force that changes based on the Webinar would be incorporated into Revision 27;

GPS Task Force

- **Major Issues and Status:**
 - RSIA, Section 109 Legal Protection:
 - RRP-TF continues to address this subject;
 - RSIA, Section 103g, Railroads required to consult with employees (including labor unions), using good faith and best efforts to try and reach agreement on required content of RRP or SSPP requirements;
 - A placeholder has been inserted in Revision 27 of the SSPP Voting Document for this subject.

GPS Task Force

- Major Issues and Status:
 - RSIA, Section 103 Requirements for Fatigue Management Analysis & Plans:
 - The work of the Fatigue Management TF will provide recommendation(s) to the Administrator;
 - All open issues and recommendation from the System Safety Task Force have been addressed by FRA and are incorporated in Revision 27 of the System Safety Program regulation recommendations.

GPS Task Force

- System Safety Task Force Vote:
 - General Passenger Task Force, Electronic Voting, based in revision 27 is underway. Voting closes, April 26, 2012;
 - Pending the outcome of the task force vote the Passenger Safety Working Group and the Full RSAC will be asked to vote electronically;
